How to cite this article. XXX, num.

Indeed, there is evidence documented for other geographies which point to... If the company has externalised the risk, liabilities will look in the balance sheet at the amount resulting from applying the criteria of quantification described in the standard. Additionally, analysis that for these purposes required by the international standard adopted in the European Union requires compliance with other circumstances that are collected in the new General Accounting Plan. Until very recent dates, the absence of international norms of accounting for far in that the conditions are not met to consider them non-refundable, such subsidies should look in the passive.
