Educators in Japan also took issue with the romanticized portrayal of children. We are all familiar with the design trends of the early and middle parts of the last century, which created enclaves of apartments and other housing surrounded by open space and separated as much as possible from through traffic, shops and services.

Forallofthesereasons,andmorethatanti-povertyactivistscouldcite,we While senior police officers lament the policing problems caused by these poor relationships in some communities, the long-term consequences fall more on the community than on the police. They found that book reading fell off when TV arrived but that after three years or so the average number of books read by each child rebounded to original levels or, for some children, even slightly higher.
