Thus the government gradually becomes the macro-manager and social manager. Many of them are losing domestic market share to foreign competitors. The U.

Preparations are now being made for the establishment of similar companies. Chinese economist Cui Zhiyuan argues that James Meade's model of liberal socialism is similar to China's socialist market economy and can be used to make sense of the model. The transition to a socialist market economy began in when Deng Xiaoping introduced his program of socialism with Chinese characteristics.

Concluding remarks Compared with the developed countries, China still has a special significance, in industrial and economic control sector, is the integration of six ministries, which were previously deeply involved in the control and management of individual enterprises or specific industries, into the State Economic and Trade Commission equivalent to Japan's Ministry of International Trade and Industry. Juxtaposed with the state-owned enterprises are individual enterprises and enterprises under other ownership structures.
